# CHAIRMAN'S LETTER

IN THE NAME OF GOD MOST GRACIOUS, MOST MERCIFUL

## ESTEEMED SHAREHOLDERS,

MAY ALLAH'S PEACE MERCY AND BLESSINGS BE UPON YOU,

I AM PLEASED TO PRESENT YOU WITH THE ANNUAL REPORT FOR THE FINANCIAL YEAR ENDED ON 31<sup>ST</sup> DECEMBER 2021. IT HIGHLIGHTS THE MOST IMPORTANT ACTIVITIES OF THE LAST YEAR AND OUR FUTURE PLANS AND ASPIRATIONS FOR THE COMING YEARS. THIS REPORT ALSO PRESENTS THE COMPANY'S FINANCIAL STATEMENT FOR THE YEAR ENDED ON 31<sup>ST</sup> DECEMBER 2021 AND THE INDEPENDENT AUDITOR'S REPORT.

### **ESTEEMED SHAREHOLDERS,**

The continuation of the pandemic and the strict precautionary measures set by the State of Kuwait led to the closure of many commercial activities, amongst which are cinemas. In light of the improved health situation in the country, the Council of Ministers agreed to gradually reopen entertainment activities. However, entry to cinema theaters is limited to those who are immune, and with a limited capacity. The capacity percentage allowed in theatres was changed from 50% up to 75% at the end of the year.

The restricted opening on one hand, and the difficulty of attracting sufficient workers to cover the company's business on the other

hand, had a significant impact on the company's performance during that year. However, due to the financial and administrative policy that developed at the beginning of the pandemic, the continuous and detailed monitoring of operating expenses, by Allah's grace we have been able to reduce the negative effects of the pandemic.

### **ESTEEMED BROTHERS,**

One of the significant effects caused by the pandemic is the delay of many projects, perhaps the most important is Dolby Cinema in Cinescape Avenues. After the closure of the airport and the strict rules to enter the country, work on the project stopped until the responsible workers managing this project were allowed to enter the country.

Out of the keenness of Kuwait National Cinema Company to abide by its promises to achieve its commitments, the company opened the latest Cinescape showrooms in Al-Assima Mall, with a capacity of 13 showrooms and more than 1,300 seats, including "4DX SCREEN" hall, "Dolby Cinema" and 4 VIP halls, in order to achieve our long-term strategy that aims to develop the cinema sector in the State of Kuwait and stabilize the presence of the Kuwait National Cinema Company as a leading company in the entertainment sector in the country.

The opening of Cinescape Al-Assima Mall demonstrates our commitment to provide the best and latest cinematic experiences that meet the expectations of our customers who are looking for innovative experiences.

By undergoing the implementation of plans and strategies, Cinescape AI Khiran Hybrid Outlet Mall work is progressing exponentially while maintaining the highest standards in the quality of business execution. This is after a period delay in the main complex building caused by the unforseen pandemic circumstances, making it hard to recruit workers due to the restrictions imposed by the government. The project is expected to open in 2023 as the concrete structure for the cinema site has been completed and a contract for implementing the interior design will be signed soon, God willing. The project is expected to open in 2023.

The 'Warehouse' Project aims to diversify the company's sources of income through the implementation of a commercial, entertainment and cultural complex project in the South Sabahiya area. The work progress of this project is progressing at an accelerated pace. The project completion percentage exceeds 53% of the mall's building, which is located on a land area of

79,640 square meters. Moreover, a construction contract was signed for the execution of the multi-story car parking building, with an area of 24,525 square meters, connected to the mall building through two pedestrian bridges. The project will include the largest furniture stores in the world, various fashion brands, restaurants and entertainment areas, as well as a covered animal and pet market. The project is expected to open in 2023.

### **ESTEEMED BROTHERS,**

Out of our keenness to cooperate and to solidify our social responsibility with the country institutions and civil society, Cinescape has allocated cinematic shows to support several entities. These shows were for the benefit of the Ministry of Youth, Rehabilitation Centers for People of Determination, Social Care Homes, 'GHERAS', the Competition Protection Agency and the Environment Public Authority, the Kuwait Society for Inventors Support, the General Administration of Relations and Security Media at the Ministry of Interior. In addition to our relentless endeavor to support youth initiatives out of faith and encouragement for national cadres and positive interaction with society.

In terms of cinematic shows in 2021, the company screened (169) foreign movies, (34) Indian movies, (51) Arabic movies, with a total of (254) movies, while at the same time screening special premieres of several movies.

### **ESTEEMED BROTHERS,**

In 2021, the company achieved a net profit of Kuwaiti Dinars 4,386,014 with a profit of 47.36 fils per share compared to the year 2020, where the company incurred net losses amounting to Kuwaiti Dinars 7,308,818 with a loss of 78.86 fils per share for the same year. The total assets of the company amounted to approximately Kuwaiti Dinars 163.3 million in 2021 compared to about Kuwaiti Dinars 125.4 million for the year 2020, with a growth of approximately 30%. In addition, shareholders' equity increased to reach approximately Kuwaiti Dinars 73.3 million in 2021, compared to approximately Kuwaiti Dinars 73.4 million for the year 2020, with a growth of approximately Suwaite Dinars 73.4 million in 2021, compared to approximately Kuwaiti Dinars 67.2 million for the year 2020, with an increase of approximately 9%.

In light of these results, the Board of Directors recommended distributing 30% of cash dividends for the financial year ended on the 31st December 2021.

The Board also recommended granting the members of the Board of Directors a remuneration of Kuwaiti Dinars 60,000 for the year ended on the 31st December 2021.

### IN CONCLUSION,

I would like to extend my sincere gratitude to His Highness the Amir, Sheikh Nawaf Al-Ahmad Al-Jaber Al-Sabah, His Highness the Crown Prince Sheikh Meshaal Al-Ahmad Al-Jaber Al-Sabah, and His Highness the Prime Minister Sheikh Sabah Al-Khaled Al-Hamad Al-Sabah, for their interest, support and care in the private sector and national institutions.

I would like to extend a special thanks to the Ministry of Health for their extended effort. I would also like to thank you our Honorable Shareholders for the valuable trust and generous support extended to us.

I would also like to express my gratitude and appreciation to the members of the company's Board Of directors, the executive management and all the company's employees for their contribution and continuous support and for their fruitful efforts to reach the desired results for the company during 2021.

ALLAH IS THE GIVER OF ALL SUCCESS,

MAY ALLAH'S PEACE, MERCY, AND BLESSING BE UPON YOU.

- 2. Following up with the executive management the progress of the company's work and discussing all observations received from regulatory authorities.
- 3. Following up, reviewing and approving of all periodic reports issued by the committees emanating from the Board of Directors.
- 4. Following up, reviewing and approving of all periodic reports issued by the financial department.

### **ACCESS INFORMATION AND DATA ACCURATELY**

Kuwait National Cinema Company provides the mechanisms and tools that enable the Board members to obtain the required information and data in a timely manner through the continuous development of the IT environment within the Company, in addition to establishing channels of direct communication between the Board's Secretary and members and submitting the reports and topics of discussion prior to the meetings with sufficient time for discussion and decision-making thereto.

### **BOARD OF DIRECTORS' COMMITTEES**

The board of directors of Kuwait National Cinema Company enjoys a flexible and smooth management model that enables it to perform its functions. This model is based on three specialized committees: Nominations and Remuneration Committee, Audit Committee and Risk Management Committee. These committees play a vital role in supporting the board of directors to do its duties.

### NOMINATIONS AND REMUNERATION COMMITTEE

The committee was established to assist the board of directors of the company to carry out its supervisory responsibilities related to the effectiveness and integrity of adherence to the policies and procedures of nomination and remuneration in the company additionally, the committee reviews and approves the selection criteria and assigning procedures of the members of the board of directors and executive management, to ensure that the nomination and remuneration policy and methodology is carried out in compliance with the strategic objectives of the company. Thus, the remuneration policy was established to attract competent, qualified and experienced employees. Accordingly, the board of directors has approved this policy as per the recommendation of the committee.

### During 2021, the Committee:

- 1. Evaluated the key performance indicators (KPI) for the Board of Directors and the Executive Management and prepared an annual report for them.
- 2. Proposed the remuneration for the members of the Board of Directors and the Chief Executive Officer.
- 3. Prepared the remuneration report.

### **FORMATION**

The nomination and remuneration committee was formed in accordance with the requirements of the Capital Markets Authority, on the 23<sup>rd</sup> of April 2019, the membership of the committee ends with the expiration of the board's membership, with the membership of:

### Name

### **Rewards Policy**

The company's remuneration policy has been prepared to attract and maintain employees with competence, knowledge, skills and experience.

The Board of Directors, based on the recommendations of the Nomination and Remuneration Committee, approves and amends the remuneration policy in the company, taking into account the following:

### Firstly: Remunerations of Board Members:

The remuneration of the members of the Board of Directors is determined based on a recommendation from the Remuneration and Nominations Committee, taking into account the annual evaluations of the members of the Board of Directors and in a manner that does not conflict with the company's articles of association and other relevant regulations, provided that these remunerations are subject to the initial approval by the Board of Directors and final approval by the company's General Assembly.

### Secondly: Remunerations of the Executive Management in the company:

The Nominations and Remunerations Committee studies the annual remuneration proposal for the Executive Management of the company based on their annual evaluation and submits its recommendation to the Board of Directors for approval.

## Thirdly: This remuneration is not binding on the company, but is subject to annual study, based on the company's achievement of the desired profits and objectives.

The Company shall maintain a special register to record the minutes of the Committee's meetings. That register shall be kept by the Secretary of the Committee in accordance with the requirements of the Capital Markets Authority.

There was no conflict between the recommendations of the Audit Committee and the Board of Directors.

### **EXTERNAL AUDITOR**

The General Assembly appointed an auditor registered in the Auditors' Register at the Authority upon the proposal of the Board of Directors pursuant to a recommendation from the Audit Committee. This appointment of the auditor satisfies all the conditions of the Authority in terms of him being independent from the Company and its Board of Directors and him not undertaking any additional work therefore other than examination and audit so that his appointment would not affect his neutrality and independence.

### LAYING DOWN RELIABLE SYSTEMS FOR RISK MANAGEMENT AND INTERNAL CONTROL

### **RISK MANAGEMENT OFFICE**

Kuwait National Cinema Company has a risk management office that operates and reports directly to the Risk Management Committee with assistance from the specialized consultancy company commissioned to assist the said office. The concerned departments cooperate with the Risk Management Office in providing the risk register report for approval by the Board of Directors.

### **RISK MANAGEMENT COMMITTEE**

The role of risk management committee is to help the company's board of directors in performing its supervisory responsibilities related to current and new risk issues associated with the activities of the company.

During the year 2021, the Risk Management Committee reviewed the results of Risk Management Reports and it was confirmed that the corrective actions were taken regarding the observations contained in the report.

### INTERNAL CONTROL AND SUPERVISION SYSTEMS

The board of directors seeks to guarantee the sufficiency and effectiveness of the internal supervision systems that are necessary to safe keep the company's operations and verify applying these systems. The organizational structure of the company reflects the internal control and supervision systems through the following:

- 1. Checking that the system is well-defined in terms of the responsibilities and authorities.
- 2. Guarantees splitting between the tasks and non-conflict of interests.
- 3. Implementing the dual supervision principle.

The effectiveness of control in Kuwait National Cinema Company is demonstrated in the multiple-phase control system adopted by the Company as a business approach through the provision of an internal audit office with adequate powers, independence and resources to enable it to perform its functions in an optimum fashion. An independent audit office has been commissioned to examine the Company's internal control system and draw-up a report in this regard, to be submitted to the Capital Markets Authority every year in addition to assigning antother audit office to review and evaluate the performance of the internal audit office every three years, provided that both the audit comittee and the board of directors are provided with a copy of this report. The Audit Committee is responsible for supervising the framework of the internal control systems in addition to the selection and rotating of the external auditor, consistent with the supervisory requirements.

### **INTERNAL AUDIT OFFICE**

The Company has established an Internal Audit Office, where the concerned officer enjoys full independence. The Audit Committee monitors the work of that Office. Further, the company has appointed a consulting firm to work with the Internal Audit Office to perform the tasks and responsibilities entrusted thereto.

# ENHANCING PROFESSIONAL CONDUCT AND MORAL VALUES

The investor's confidence in the Company's integrity and financial soundness is derived from the deep-rooted culture of professional conduct and moral values within the Company. Kuwait National Cinema Company emphasizes its commitment to deepening this culture through compliance by its Board of Directors and Executive Management with the corporate policies and internal regulations and observance of the legal and supervision requirements so as to serve the interests of all parties related to the Company, in particular the shareholders. This is achieved through strict adherence to the highest levels of transparency, to avoid any conflict of interests. To this end, Kuwait National Cinema Company has incorporated within its work charter a conflict of interest policy that sets out the methods and procedures necessary for addressing and managing situations in which a conflict of interests has arisen, fulfill the relevant requirements and prohibit such practices by members of the Board of Directors and the Executive Management. This objective is supported by a strict separation of personal interests from official responsibilities within the company.

### **REPORTING POLICY FOR VIOLATIONS AND EXCESSES**

Kuwait National Cinema Company strictly observes the policy of reporting violations and excesses. This policy empowers company employees to express internally their suspicions concerning any unsound practices or matters that raise suspicion in the financial reports, internal control systems or any other matter. As well as setting up appropriate arrangements that allow the conduct of independent and fair investigations of these matters, while guarantees the policy protection for the whistleblower from any negative reaction or damage that he may suffer arising from him having reported such practices.

### **DISCLOSURE AND TRANSPARENCY**

Governance criteria includes promoting of the disclosure mechanism with utmost accuracy and in a timely manner for all matters related to the establishment of the company, its financial position, its performance and its financial structure. The relevant departments approved by the board of directors are responsible for verifying the disclosure of the core information related to the company to the Boursa Kuwait and the Capital Markets Authority.

The company holds a register that includes all operations related to the members of the board of directors and executive management for the year 2021 maintained by the Investors' Affairs Unit and shareholders have the right to peruse this register without paying any fees.

### **INVESTORS AFFAIRS UNIT**

This unit ensures the ability of stakeholders to communicate with the Company in an effective manner. This Unit gave effect to its role by providing all the data that existing and prospective investors may need, in a straightforward and prompt manner and does so by responding to enquiries by email or direct personal communication.

### **DEVELOPING INFORMATION TECHNOLOGY**

Kuwait National Cinema Company is keen to develop its information technology infrastructure to serve as the key driver of its disclosure process. To this end, the Company's website serves as an essential part of the disclosure mechanism in addition to the annual reports, financial statements, and notes to the financial statements and information related to the Company's activities.

### **RESPECT FOR THE RIGHTS OF SHAREHOLDERS**

The company is keen to respect the rights of its shareholders and this is why it treats them with a high level of transparency in a serious and continuous manner. To this end, the board of directors constantly communicates with shareholders by:

1. Following up on delivering the invitation for and documents of the ordinary and extraordinary general assembly, delivering cash through the approved means, inviting shareholders and encouraging them to exercise their rights through direct communication and follow-up or any other available means.

2. Adopting an open-door policy to receive any proposals and complaints, communicated in the chairman's letter during the meetings of the general assemblies.

3. Sending regular bulletins and invitations for participation and/or perusing the activities and events organized by the company.

4. Through the way of the company's website, providing all information, data and advertising on a regular basis.

The company has a register maintained by the clearing agency which allows investors to inspect this register. All dealings with the data recorded in the register are treated with the highest standards of protection and confidentiality, without conflicting with the applicable laws and controls.

Additionally, KNCC encourages its shareholders to attend the general assembly meeting and gives them the opportunity to vote and exercise all their rights.

### **STAKEHOLDERS**

Kuwait National Cinema Company has adopted a policy that regulates its relations with stakeholders. The policy features rules and procedures that guarantee protection and recognition of the rights of stakeholders and ensures that they are properly indemnified in the event of violation of any of their rights in strict observance of the letter and spirit of the relevant laws.

The Company guarantees stakeholder rights by providing information periodically by maintaining continuous communication with them and encouraging them to follow up the Company's activities within a framework of clear transparency and open dialogue by keeping them informed of all developments related to its periodical financial statements and on-going disclosures subject to the Company's contracts and operational policies.

### **PERFORMANCE ENHANCEMENT AND IMPROVEMENT**

### TRAINING PROGRAMS AND COURSES

Kuwait National Cinema Company is keen to provide the members of the board of directors and executive management with all necessary training programs in order to develop skills and increase knowledge in view of achieving a better level of management and competence. In this regard, in 2021, the company has coordinated with training and consultancy authorities in various fields.

### PERFORMANCE APPRAISAL

The performance of the Board of Directors and the Executive Management is appraised first as a whole, and second, individually for each member separately by means of key performance indicators.

### **CREATING INSTITUTIONAL VALUES**

At the beginning of every year, the Company identifies the values that it will seek to enhance in the short, medium and long term by laying down such mechanisms and procedures that will facilitate the achievement of the Company's strategic objectives. Furthermore, Kuwait National Cinema Company continuously develops its internal integrated reporting systems thereby reaffirming its ongoing focus on creating institutional values for all its employees in order to motivate them to strive to achieve financial prosperity for their Company.

### **SOCIAL RESPONSIBILITY**

Kuwait National Cinema Company works to enhance its role and commitment toward its national duties and its social responsibilities in order to develop our community, through contributing and supporting youth initiatives, state institutions and civil society.

### PARTNERSHIPS

Kuwait National Cinema Company is proud to continue to support in fulfilling the vision of LOYAC and its mission which is represented in providing options for the youth full of life, hope and creativity. with the aim of contributing to preparing and qualifying the next generation to be a work-loving generation and a good addition to society.

Cinescape has allocated cinematic shows to support several entities, including: the Ministry of Youth, Rehabilitation Centers for People of Determination, Social Care Homes, "Gheras", the Competition Protection Agency and the Environment Public Authority, in addition to the Kuwait Society for Inventors Support and the General Administration of Relations and Security Media at the Ministry of Interior.

# INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS

## REPORT ON THE AUDIT OF CONSOLIDATED FINANCIAL STATEMENTS OPINION

We have audited the accompanying consolidated financial statements of the Kuwait National Cinema – K.P.S.C ("Parent Company") and its subsidiaries (referred collectively as "the Group") which comprise the consolidated statement of financial position as at 31 December 2021, the consolidated statement of income, other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

n our opinion, the accompanying consolidated financial statements present fairly, in all material respects,

the consolidated financial position of the Group as at 31 December 2021, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ('IFRSs').

### **BASIS FOR OPINION**

We conducted our audit in accordance with the International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **KEY AUDIT MATTERS**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each key audit matter, our description of how our audit addressed the matter is provided in that context.

### REVENUE RECOGNITION MOVIES SHOWS

There is an inherent risk around the accuracy and timing of revenue recorded due to the complexity of Information Technology (IT) environment over which tickets for movie shows are sold. Application of the revenue recognition principles contained with IFRS 15 "Revenue from Contracts with Customers" results in revenue being recognized when the related movie show has been exhibited. Accordingly, we have identified revenue recognition from movie shows as a key audit matter.

## OUR AUDIT PROCEDURES INCLUDED THE FOLLOWING:

• We evaluated the relevant IT systems and the design and operating effectiveness of controls over the IT environment as well as the design and implementation of controls specific to the recording of ticket sales and the recognition of related revenue.

• We reconciled the amount s banked from ticket sales to the amounts recorded as revenue in the consolidated financial statements.

• We audited the reconciliation between revenue recorded in the accounting recorded and the cash collected in banks.

• We performed substantive test of details and analytical procedures which included, but were not limited to, a monthly revenue analysis, an analysis of revenue per movie and the average ticket price.

• We assessed the disclosures in the consolidated financial statements relating to revenue against the requirements of IFRSs.

The accounting policies for revenue recognition from movie shows is set out in Note 2.3.13 and the details of revenue are disclosed in Note 21 to the consolidated financial statements.

### IMPAIRMENT OF PROPERTY PLANT AND EQUIPMENT AND RIGHT - OF - USE LEASED ASSETS

Property plant and equipment and right-of-use leased assets are carried at KD 23,003,423 and KD 20,936,692 respectively as of 31 December 2021. These comprise assets related to cinema and buffet divisions carried at cost less accumulated depreciation and amortization of KD 34,046,938 as disclosed in notes 5 and 7 to the consolidated financial statements. The operation of the cinema and buffet divisions was suspended in 2020 as a consequence of the ongoing Covid-19 pandemic and had recommenced its cinema and buffet operation divisions on 13 May 2021. Accordingly management has tested these assets for impairment.

The aforementioned impairment test is significant to our audit because the assessment of the recoverable amount requires management to apply significant judgement and make significant estimates. The determination of these judgements and estimates is further complicated by the effect of the ongoing Covid-19 pandemic. Management used the value in use method to assess the recoverable amount of the assets. The determination of the value in use requires that judgments and estimates be made concerning future cash flows, growth rates, future business prospects and associated discount rates. Accordingly, we consider this as a key audit matter.

## OUR AUDIT PROCEDURES INCLUDED THE FOLLOWING:

• We evaluated the design and implementation of relevant controls over the impairment process.

• Together with our internal valuation specialists, we assessed the appropriateness of the group's valuation methodology applied in determining the recoverable amount as well as the impact of the Covid-19 pandemic on the business, to determine if it was in compliance with the requirements of IFRSs;

• We discussed potential changes in key drivers with management in order to evaluate whether the inputs and assumptions used in the cash flow forecast were suitable;

• We reperformed the mathematical accuracy of the value in use calculation;

• We performed a sensitivity analysis of the value in use calculation; and

• We assessed the appropriateness of the disclosures made in the consolidated financial statements relating to this matter against the requirements of IFRSs.

### **OTHER INFORMATION**

Management is responsible for the other information. The other information consist of information included in the Annual Report of the Group for the year ended 31 December 2021, other than the consolidated financial statements and our auditor's report thereon. We obtained the report of the Parent Company's Board of Directors, prior to the date of our auditors' report, and we expect to obtain the remaining sections of the Annual Report of 2021 after the date of the auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Group's financial reporting process.

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

• Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

• Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

• Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists,

we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

• Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

• Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Furthermore, in our opinion, proper books of account have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of the Parent Company's Board of Directors relating to these consolidated financial statements, are in accordance therewith. We further report that we obtained all the information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate all information that is required by the Companies Law No. 1 of 2016 and its executive regulations, as amended, and by the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, that an inventory was duly carried out; and that, to the best of our knowledge and belief, no violations of the Companies Law No 1 of 2016 and its executive regulations, as amended, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, have occurred during the financial year ended 31 December 2021 that might have had a material effect on the business of the Group or on its consolidated financial position.

We further report that, during the course of our Audit, we have not become aware of any material violations of the provisions of Law No. 7 of 2010, concerning the Capital Markets Authority and its related regulations, as amended, during the year ended 31 December 2021, that might have had a material effect on the business of the Group or on its consolidated financial position.

Paid for loans and bank facilities		(9,838,093)	(1,310,954)
Paid for finance costs		(829,333)	-
Paid for acquisition of treasury shares		-	(78,757)
Repayment of lease liability		(795,243)	(187,176)
Repayment of interest of lease liability	8	(648,733)	(408,320)
Dividends paid		(99,765)	(3,134,088)
Net cash generated from financing activities		13,963,329	5,329,628
Net change in cash and cash equivalents		(219,410)	(7,864,451)
Cash and cash equivalents at the beginning of the year	13	20,326,043	28,190,494
Cash and cash equivalents at the end of the year	13	20,106,633	20,326,043

The accompanying notes form an integral part of these consolidated financial statements

### **1. INCORPORATION & ACTIVITIES**

Kuwait National Cinema Company "the Parent Company" was established as a Kuwaiti Shareholding Public Company in the State of Kuwait on 5 October 1954. The main objectives of the Parent Company are establishing, operating and utilizing cinemas inside and outside Kuwait, importing, producing and distributing movies of different genres and sizes, in addition to exporting, leasing and selling them to others. As well as, importing all machinery and equipment required for cinema industry and trading therein. The Parent Company's objectives also include trading in raw movies, tools of cinematography and projection, along with its furniture and in general, everything that would be involved or used in cinema industry. In addition, bidding for all tenders, government or private is also included within its objectives. The Parent Company has the right to deal with theatre groups, music and marching bands inside and outside the state of Kuwait in order to hold concerts and performances, on the condition that such concerts and performances should be held in accordance with the state's laws and regulations. The Parent Company has also the right to lease cinemas to government and private bodies as well as impresarios. In general, the Parent Company is specialized in everything related to cinema and its aspects of education, entertainment and intellectual activity inside and outside Kuwait. Utilizing financial surpluses available to the company through investing them in real estate and financial portfolios managed by specialized companies and entities. The Parent Company has the right to establish, operate and utilize theatres, import all machinery, equipment and devices required for this activity, utilize and lease shops, restaurants, coffee shops, fun games halls in cinema and theatre buildings, manage and operate the visual and audio media and carry out the activities of publishing, distribution and media. The Parent Company has the right to exercise its activities directly or by leasing to others or acting on behalf of others. The Parent Company may have an interest or participate in any way in any entity that conducts similar business or which may help it achieve its objectives. The company has the right also to establish and participate such entities and carries out its all objectives inside and outside Kuwait.

The registered office of the Company is located at Old Khaitan area, Plot 9, Building 164, 2nd floor (office 1 & 2), P.O. Box 502 Safat, 13006 Safat, Kuwait.

These consolidated financial statements include the financial statements of the Parent Company and its following Subsidiaries (collectively "the Group").

	Ownership percentage (%)	Activity	Incorporation country
International Film Distribution Company - K.S.C.C	99.25	Publishing and film distribution	Kuwait
Al Kout Film Production and Distribution Company - S.A.E	100	Production and film distribution	Egypt

28 Annual Report 2021

The Group have full control over its subsidiaries. There is no material non-controlling interest to be disclosed.

The consolidated financial statements were authorised for issuance by the Board of Directors of the Parent Company on 23 February 2022. The general assembly of the shareholders of the Parent Company has the authority to amend the consolidated financial statements.

### 2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

### 2.1 Basis of preparation

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and Interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC).

These consolidated financial statements are prepared under the historical cost basis of measurement, except for investments property, lands and investments at fair value through statement of other comprehensive income that are measured at fair value, as explained in the accounting policies below. The accounting policies of the Group have been consistently applied to all years presented, except as stated in note 2.2 in relation to adoption of new and revised International Financial Reporting Standards.

The consolidated financial statements are presented in Kuwaiti Dinars which is the functional currency of the Group.

The preparation of consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. It also requires management to exercise its judgment in the process of applying accounting policies. The areas involving a high degree of judgment or complexity or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note (4).

## 2.2 New and revised International Financial Reporting Standards (IFRS)

## 2.2.1 Changes in accounting policies and disclosures

The accounting policies used in the preparation of these consolidated financial statements are consistent with those used in the previous year except for the adoption of certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2021:

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

(ALL AMOUNTS ARE IN KUWAITI DINAR UNLESS OTHERWISE STATED)

### Interest Rate Benchmark Reform "phase two" amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4, and IFRS 16

The amendments enable entities to reflect the effects of transitioning from benchmark interest rates, such as interbank offer rates (IBORs) to alternative benchmark interest rates without giving rise to accounting impacts that would not provide useful information to users of financial statements.

The amendments affect many entities and in particular those with financial assets, financial liabilities or lease liabilities that are subject to interest rate benchmark reform and those that apply the hedge accounting requirements in IFRS 9 or IAS 39 to hedging relationships that are affected by the reform.

- The amendments apply to all entities and are not optional.

- The amendments are effective for annual periods beginning on or after 1 January 2021 with early application permitted.

There is no impact on the consolidated financial statements from the adoption.

### Covid-19-Related Rent Concessions beyond 30 June 2021 [IFRS 16]

In March 2021, the International Accounting Standards Board amends IFRS 16 to extend the availability of the practical expedient that relased in May 2020, that has an expiration date of 30 June 2020, which relieves a lessee from assessing whether a COVID-19-related rent concession is a lease modification. So that the extend applies to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022, provided the other conditions for applying the practical expedient are met. This is the only change made to the practical expedient.

The amendments are effective for annual reporting periods beginning on or after 1 April 2021. Earlier application is permitted.

- The total impact of waiver of lease payments amounted to

KD 574,017 for the year ended 31 December 2021.

## 2.2.2 IFRSs issued but not yet mandatorily effective

At the date of authorization of these financial statements, the Group has not applied the following new and revised IFRS Standards that have been issued but are not yet effective:

#### **IFRS 17 Insurance Contracts**

The amendments defer the date of initial application of IFRS 17 (incorporating the amendments) to annual reporting periods beginning on or after 1 January 2023.

#### Amendments to IAS 1

Classification of Liabilities as Current or Non-current

The amendments are applied retrospectively for annual periods beginning on or after 1 January 2023, with early application permitted.

#### Amendments to IFRS 3 Reference to the Conceptual Framework

The amendments are effective for business combinations for which the date of acquisition is on or after the beginning of the first annual period beginning on or after 1 January 2022.

Early application is permitted if an entity also applies all other updated references (published together with the updated Conceptual Framework) at the same or earlier.

#### Amendments to IAS 16 Property, Plant and Equipment— Proceeds before Intended Use

The amendments are effective for annual periods beginning on or after 1 January 2022, with early application Permitted.

### Amendments to IAS 37 Onerous Contracts – Cost of Fulfilling a Contract

The amendments are effective for annual periods beginning on or after 1 January 2022, with early application permitted.

#### Annual Improvements to IFRS Standards 2018-2020 Cycle

Amendments to IFRS 1 First-time Adoption of International Financial Reporting Standards, IFRS 9 Financial Instruments, IFRS 16 Leases, and IAS 41 Agriculture

The amendment is effective for annual periods beginning on or after 1 January 2022, with early application permitted.

### Amendments to IFRS 4

Extension of the Temporary Exemption from Applying IFRS 9 The amendment is effective for annual periods beginning on or after 1 January 2023

### Amendments to IAS 1 and IFRS Practice Statement 2

Disclosure of accounting policies

the amendment is effective for annual periods beginning on or after 1 January 2023

#### Amendments to IAS 8

Definition of accounting estimates

The amendment is effective for annual periods beginning on or after 1 January 2023

Management anticipates that these new standards, interpretations and amendments will be adopted in the Group's consolidated financial statements for the period of initial application and adoption of these new standards, interpretations and amendments may have no material impact on the consolidated financial statements of the Group in the period of initial application.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### FOR THE YEAR ENDED 31 DECEMBER 2021

(ALL AMOUNTS ARE IN KUWAITI DINAR UNLESS OTHERWISE STATED)

### 2.3 Significant Accounting Policies

### 2.3.1 Basis of Consolidation

### Subsidiaries

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company (a) has power over the investee (b) is exposed, or has rights, to variable returns from its involvement with the investee and (c) has the ability to use its power to affects it returns.

The Group reassess whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three components of controls listed above.

Consolidation of a subsidiary begins when the company obtains control over the subsidiary and ceases when the Company losses control over the subsidiary. Specifically, income and expenses of subsidiary acquired or disposed of during the year are included in the consolidated statement of income or other comprehensive income from the date the Company gains control until the date in which Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the noncontrolling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the consolidated financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intra-group transactions, balances, revenues and expenses are eliminated in full on consolidation.

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the Company's shareholders.

When the Group loses control of a subsidiary, a gain or loss resulted from derecognition is recognized in the statement of income and is calculated as the difference between: • The aggregate of the fair value of the consideration received and the fair value of any retained interest,

• The carrying amount of the assets before disposal (including goodwill), and liabilities of the subsidiary and any non-controlling interests.

All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IAS 39, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

### **Business combinations**

Acquisitions of businesses combination are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in the consolidated statement of income as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except for deferred tax assets or liabilities, liabilities or equity instruments related to share based payment arrangements and assets that are classified as held for sale in which cases they are accounted for in accordance with the related IFRS.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of any interest acquired previously over the net of the asset acquired of the identifiable assets acquired and the liabilities assumed as at the acquisition date. If the net of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any noncontrolling interests in the acquiree and the fair value of the any interest acquired previously, the excess is recognised immediately in the consolidated statement of income as gain.

Non-controlling interests may be measured either at the noncontrolling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets or at fair value of such share. The choice of measurement basis is made on a transaction-bytransaction basis.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date (the date when the Group obtains

control) and the resulting gain or loss, if any, is recognised in the consolidated statement of income. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to the statement of income where such treatment would be appropriate if that interest were disposed off.

#### Goodwill

Goodwill, arising on an acquisition of subsidiaries, is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units

(or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired.

If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit.

Any impairment loss for goodwill is recognized directly in the consolidated statement of income. An impairment loss recognized for goodwill is not reversed in subsequent periods.

On disposal of any of the cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

## 2.3.2 Investments in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The resulted assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with IFRS 5 "non- current assets held for sale and non-continuing operations. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint ventur.

When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred constructive obligations or made payments on behalf of the associates or joint venture.

On acquisition of an associate or a joint venture, any excess of the cost of the acquisition over the Group's share of the net fair value of the identifiable assets and liabilities and contingent liabilities of the associate and joint venture as at the acquisition date is recognised as goodwill, which is included within the carrying amount of the investment in the associates and joint ventures. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the acquisition, after reassessment, is recognised immediately in the consolidated statement of income.

The requirements of IAS 36 are applied to determine whether it is necessary to recognise any impairment loss in the associates or joint ventures. The entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with the requirements of IAS 36 "Impairment of Assets".

When a Group entity transacts with an associate or a joint ventures of the Group, profits and losses resulting from the transactions with the associate or joint venture are disposed from the share of the Group in an associate or a joint venture.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture. When the Group retains an interest in the former associate or a joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with IFRS 9. The difference between the carrying amount of the associate or a joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate or a joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities.

Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to consolidated statement of income (as a reclassification adjustment) when the associate or joint venture is disposed of.

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to consolidated statement of income on the disposal of the related assets or liabilities.

### 2.3.3 Property, plant and equipment

Property, plant and equipment, other than lands, are stated at cost less accumulated depreciation and any impairment losses. Cost includes the purchase price and directly associated costs of bringing the asset to a working condition for its intended use. Maintenance, repairs and immaterial renewal are recognized in the consolidated statement of income for the period in which the expenses are incurred.

Land is stated at fair value based on periodic valuations by independent real estate experts usually every three to five years or at early periods if significant or volatile change in fair value are experienced. Any valuation increase arising on revaluation of land is recognised directly in equity under revaluation reserve except to the extent that it reverses a revaluation decrease for the same asset previously recognized in the profit or loss, in which case the increase is credited to profit and loss to the extent of the decrease previously expensed.

Decline in carrying amount arising as a result of the revaluation is directly charged to the consolidated statement of income to the extent that it exceeds the balance, if any held in the revaluation reserve relating to a previous revaluation.

Depreciation is calculated based on estimated useful life of the applicable assets except for the lands on a straight line basis. The carrying amount is written down immediately to its recoverable amount if the carrying amount of Property, plant and equipment is greater than its estimated recoverable amount.

The assets' residual values, useful lives and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted basis.

Gains or losses on disposals are determined by the difference between the sales proceeds and the carrying amount of the asset and is recognized in the consolidated statement of income. Projects under construction are included in property, plant and equipment until they are completed and ready for their intended use. At that time they are reclassified under the appropriate category of assets and the depreciation is calculated since then.

### 2.3.4 Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses.

Amounts paid as cost for purchasing films are capitalized within intangible assets and are amortized on the time periods according to the expected future benefits.

The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use. Gains or losses arising from derecognition are measured as the difference between the net proceeds and the carrying amount of the disposed asset and recognised in the consolidated statement of income.

## 2.3.5 Impairment of tangible and intangible assets other than goodwill

The Group annually, reviews the tangible assets and intangible assets to determine whether there is objective evidence that those assets may be impaired. If such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of the asset's fair value less costs to sell or value in use. Impairment losses are recognised in the consolidated statement of income for the year in which they arise. When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the extent that it does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset. A reversal of an impairment loss is recognised immediately in the consolidated statement of income.

### 2.3.6 Investment property

Investment properties are properties held to earn rentals and/ or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequently, investment properties are measured at fair value. Gains and losses arising from changes in the fair value of investment properties are

included in consolidated statement of income in the period in which they arise.

n investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of income in the period in which the property is derecognised.

Projects in progress intended to be used as investment properties shall be considered as investment properties and carried at cost. They are re-measured at fair value by accredited independent valuers and the lowest valuation shall be approved. In case there is no reliable method for measuring the fair value of these lands under development, such properties shall be carried at cost up to the shorter of the date of completion and development of properties or the date of reliable determination of its fair value.

### 2.3.7 Financial Instruments

#### **Recognition and derecognition**

A financial asset or a financial liability is recognized when the Group becomes a party to the contractual provisions of the instrument.

All regular way purchase and sale of financial assets are recognized using settlement date accounting. Changes in fair value between the trade date and settlement date are recognized in the consolidated Statement of income or in the consolidated Statement of income and other comprehensive income in accordance with the policy applicable to the related instrument. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulations or conventions in the market place.

A financial asset (in whole or in part) is de-recognised when the contractual rights to receive cash flows from the financial asset has expired or the Group has transferred substantially all risks and rewards of ownership and has not retained control. If the Group has retained control, it continues to recognize the financial asset to the extent of its continuing involvement in the financial asset. A financial liability is derecognized when the Group's obligation specified in the contract is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and recognition of a new liability.

All financial assets are initially measured at fair value. Transaction costs are added to the cost of all financial instruments except for financial assets classified as at fair value through profit or

loss. Transaction costs on financial assets classified as at fair value through profit or loss are recognised in the consolidated Statement of income.

## Classification and measurement of financial assets and financial liabilities

### **Financial Assets**

The Group determines classification and measurement category of financial assets based on a combination of the entity's business model for managing the assets and the instrument's contractual cash flow characteristics except equity instruments and derivatives.

#### The business model assessment:

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

• How the performance of the business model and the financial assets held within that business model are evaluated and reported to the Group's key management personnel;

• The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed;

• How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).

The expected frequency, value and timing of sales are also important aspects of the Group's assessment. The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

#### Contractual cash flow assessment

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cashflows and to sell the financial instrument, the Group assesses whether the financial instrument's cash flows represent Solely Payments of Principal and Interest (the 'SPPI test').

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

The most significant elements of 'interest' within a basic lending arrangement are typically the consideration for the time value of money, credit risk, other basic lending risks and interest margin. To make the SPPI assessment, the Group applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

Financial assets are classified into following categories under IFRS 9:

- Amortised cost (AC)
- Fair Value through Other Comprehensive Income (FVOCI)
- Fair Value Through Profit and Loss (FVTPL)

#### Amortised cost (AC)

The Group classifies financial assets at AC if it meets both of the following conditions and is not designated as at FVTPL:

• The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and

• The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

Financial assets classified at AC are subsequently measured at amortised cost using the effective interest method adjusted for impairment losses, if any. Interest income, foreign exchange gains/ losses and impairment are recognised in the consolidated Statement of income. Any gain or loss on derecognition is recognised in the consolidated Statement of income.

#### Fair Value through Other Comprehensive Income (FVOCI)

Debt instruments at FVOCI

The Group classifies debt instruments at FVOCI if it meets both of the following conditions:-

• The instrument is held within a business model, the objective of which is achieved by both collecting contractual cash flows and selling financial assets; and

• The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Debt instrument classified as FVOCI are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in Other Comprehensive Income ("OCI"). Interest income and foreign exchange gains and losses are recognised in consolidated Statement of income. On derecognition, cumulative gains or losses previously recognised in OCI are reclassified from OCI to consolidated Statement of income.

#### Equity instruments at FVOCI

Upon initial recognition, the Group may elect to classify irrevocably some of its equity investments as at FVOCI if they meet the definition of Equity under IAS 32 Financial Instruments:

Equity instruments at FVOCI are subsequently measured at their fair value. Changes in fair values including foreign exchange gains and losses are recognised in OCI. Dividends are recognised in consolidated Statement of income when the right of the payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI. Equity instruments at FVOCI are not subject to an impairment assessment. (On derecognition, cumulative gains or losses are reclassified from OCI to retained earnings in the consolidated statement of changes in equity).

#### Fair Value Through Profit and Loss (FVTPL)

Financial assets whose business model is to acquire and sell, or whose contractual terms do not give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding, are classified as FVTPL.

In addition to the above, on initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets classified as FVTPL are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in the consolidated Statement of income. Interest income and dividends are recognised in the consolidated Statement of income according to the terms of the contract, or when the right to payment has been established.

#### **Financial liabilities**

The accounting for financial liabilities remains largely the same as it was under IAS 39, except for the treatment of gains or losses arising from Group's own credit risk relating to liabilities designated at FVTPL. Such movements are presented in OCI with no subsequent reclassification to the consolidated Statement of income.

#### Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'Expected Credit Loss' (ECL) model. The expected credit loss of a financial instrument is measured in a way that reflects an unbiased and probability-weighted amount determined by evaluating range of possible outcomes; the time value of money; and past events, current conditions and forecast of future economic conditions. The ECL model applies to all financial instruments except investments in equity instruments. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

IFRS 9 introduces three-stage approach to measuring ECL. Assets migrate through the following three stages based on the change in credit quality since initial recognition.

#### Stage 1: 12 months ECL

The Group measures loss allowances at an amount equal to 12-month ECL on financial assets where there has not been significant increase in credit risk since their initial recognition, or on exposures that are determined to have a low credit risk at the reporting date. The Group considers a financial asset to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade'.

### Stage 2: Lifetime ECL – not credit impaired

The Group measures loss allowances at an amount equal to lifetime ECL on financial assets where there has been a significant increase in credit risk since initial recognition but are not credit impaired. When determining whether the credit risk on a financial instrument has increased significantly, management considers reasonable and supportable information available, in order to compare the risk of a default occurring at the reporting date with the risk of a default occurring at initial recognition of the financial instrument.

#### Stage 3: Lifetime ECL – credit impaired.

A financial asset is considered as credit impaired when there is objective evidence that the amount due under the financial asset is uncollectible. The Group considers a financial asset as credit impaired if the amount due under the financial instrument is overdue by more than 90 days, or if it is known that the counter party has any known difficulties in payment, unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate. Lifetime ECL are recognized as the difference between the financial asset's gross carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

Life time ECL is ECL that result from all possible default events over the expected life of a financial instrument. The 12 month ECL is the portion of life time expected credit loss that result from default events that are possible within the 12 months after the reporting date. Both life time ECLs and 12 month ECLs are calculated on either an individual basis or a collective basis depending on the nature of the underlying portfolio of financial instruments.

ECL is the discounted product of the Probability of Default (PD), Exposure at Default (EAD), and Loss Given Default (LGD). The

PD represents the likelihood of a borrower defaulting on its financial obligation, either over the next 12 months (12M PD), or over the remaining lifetime (Lifetime PD) of the obligation. EAD represents the expected exposure in the event of a default. The Group derives the EAD from the current exposure to the financial instruments and potential changes to the current amounts allowed under the contract including amortisation.

The EAD of a financial asset is its gross carrying amount. The LGD represents expected loss conditional on default, its expected value when realised and the time value of money.

The Group applies the simplified approach to recognise lifetime expected credit losses for its trade receivables as permitted by IFRS 9. Accordingly, trade receivables which are not credit impaired and which do not have significant financing component are categorised under stage 2 and lifetime ECL is recognised.

Loss allowances for ECL are presented as a deduction from the gross carrying amount of the financial assets for (AC).

#### **Hedge Accounting**

The general hedge accounting requirements of IFRS 9 retain the three types of hedge accounting mechanisms in IAS 39. However, greater flexibility has been introduced to the types of transactions eligible for hedge accounting, specifically broadening the types of instruments that qualify as hedging instruments and the types of risk components of non-financial items that are eligible for hedge accounting. In addition, the effectiveness test has been overhauled and replaced with the principle of an 'economic relationship'. Retrospective assessment of hedge effectiveness is no longer required.

Under IFRS 9, embedded derivatives are no longer separated from a host financial asset. Instead, financial assets are classified based on the business model and their contractual terms. The accounting for derivatives embedded in financial liabilities and in non-financial host contracts has not changed.

### 2.3.8 Inventories

Inventories are valued at the lower of cost or net realisable value. Cost is determined on a weighted average cost basis. Net realizable value is determined based on the estimated selling prices less all the estimated costs of completion and costs necessary to make the sale.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### FOR THE YEAR ENDED 31 DECEMBER 2021

(ALL AMOUNTS ARE IN KUWAITI DINAR UNLESS OTHERWISE STATED)

### 2.3.9 Post-employment benefits

The Group is liable under Kuwait Labour Law to make payments under defined benefit plans to employees upon termination of employment. Such payment is made on a lump sum basis at the end of an employee service. Defined benefit plan is un-funded and is based on the liability that would arise on involuntary termination of all employees on the consolidated financial statements date. This basis is considered to be a reliable approximation of the present value of the Group's liability.

### 2.3.10 Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of economic resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are measured at the present value of the consideration expected to be required to settle the obligation using a discount rate that reflects market's assessments and the time value of money and the risks specific to the obligation.

### 2.3.11 Treasury shares

Treasury shares represent the Company's own shares that have been issued, subsequently purchased by the Group and not yet reissued or cancelled till the date of the consolidated financial statements. Treasury shares are accounted for using the cost method. Under the cost method, the total cost of the shares acquired is reported as a contra account within equity. When the treasury shares are reissued; gains resulted are recognized within a separate un-distributable account in equity "treasury shares reserve". Any realised losses are charged to the same account in the limit of its credit balance, any additional losses are charged to retained earnings to reserves and then to premium. Gains realised subsequently on the sale of treasury shares are first used to offset any previously recorded losses in reserves, retained earnings and the gain on sale of treasury shares.

### 2.3.12 Foreign currencies

### Functional and presentation currency

Items included in the consolidated financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency').

The consolidated financial statements are presented in 'Kuwaiti Dinars' (KD).

#### **Transactions and balances**

Foreign currency transactions are translated into Kuwaiti Dinars using the exchange rates prevailing at the dates of the transactions. At the date of the consolidated financial statements, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Foreign exchange gains or losses are resulted from the settlement of such transactions and from the translation at year-end in the consolidated statement of income.

#### Group's entities

The results and financial position of all of the Group's entities that

have a functional currency different from the presentation currency are translated into the presentation currency as follows (other than companies which are operating in high inflation countries):

- Assets and liabilities for each financial position statement are translated at the closing rate at the date of the financial statements.

- Income and expenses for each income statement are translated at average exchange rates.

- All resulting exchange differences are recognized as a separate component of equity.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in a foreign exchange translation reserve in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that includes a foreign operation that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates or joint arrangements that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

### 2.3.13 Revenues recognition

Revenues from contracts with customers are recognized when the entity meets performance obligation through transferring the promised goods or services to the customer. Such goods or services are considered transferred when the customer has control over these goods or services at point in time or point over time.

Revenues are measured at the consideration expected to be received by the entity having the right to do so against transferring the promised good or service to the customer, except for the amounts collected on behalf of third parties. The consideration promised in a contract with the customer includes fixed or variable amounts or both of them.

- Revenues from movies shows are recognized at point in time, when the entity meets performance obligation and the customer has control over such service.

- Revenues from movies distribution are recognized at point over time, when the entity meets performance obligation through transferring the right of use promised to the customer.

- Revenues from foods and drinks goods are recognized at point in time, when the entity meets performance obligation and the customer has control over such goods.

- Revenues from consultancy contracts are recognized at point over time, when the entity meets performance obligation and the customer has control over such service.

- Other revenues are recognized at point in time or point over time,

once such service is rendered or upon completing the service according to its nature.

- Revenues from dividends resulting from equity instruments designated at FVOCI in the statement of income, when the Company's right in receiving dividends, unless such dividends are represented clearly in redeeming a portion of investment cost.

- Interest income is recognized on a time proportion Using specific effective methods.

### 2.3.14 Accounting for Leases

#### The Group as a lessee

The Group assesses whether contract is or contains a lease, at inception of the Contract. The Group recognizes a right of use asset and a corresponding lease liability on the date on which the lessor makes the asset available for use by the Group (the commencement date).

On that date, the Group measures the right of use at cost, which comprises of:

- the amount of the initial measurement of the lease liability.

- any lease payments made at or before the commencement date, less any lease incentives received

- any initial direct costs, and

- an estimate of costs to be incurred to restoring the underlying asset to the condition required by the terms and conditions of the lease as a consequence of having used the underlying asset during a particular period; this is recognised as part of the cost of the right of use asset when the Group incurs the obligation for those costs, which may be at the commencement date or as a consequence of having used the asset during a particular period.

The incremental borrowing rate depends on the term, currency and start date of the lease and is determined based on a series of inputs including: the risk-free rate based on government bond rates; a country-specific risk adjustment; a credit risk adjustment based on bond yields; and an entity-specific adjustment when the risk profile of the entity that enters into the lease is different to that of the Group and the lease does not benefit from a guarantee from the Group.

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. On that date, the lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

• fixed payments (including in-substance fixed payments), less any lease incentives receivable

• variable lease payment that are based on an index or a rate

• amounts expected to be payable by the lessee under residual value guarantees

• the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and

• payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Payments associated with leases of short term leases and low-value assets are recognized on a straight-line basis as an expense in consolidated statement of income.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under IAS 37. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

#### **Subsequent Measurement**

Generally, after the commencement date, the Group measures the right-of-use asset at cost less accumulated depreciation and impairment losses. Depreciation is calculated on a straight line basis over the shorter of the asset's useful life and the lease term. The Group determines whether a right of use asset is impaired and recognizes any impairment loss identified in the consolidated statement of income. The depreciation starts at the commencement date of the lease.

The Group applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for an identified impairment loss (Note 2.3.5).

After the commencement date, the Group measures lease liability by increasing the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payment made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

• The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

• The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).

• A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Variable rents that do not depend on an index or rate are not included in the measurement the lease liability and the right-ofuse asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in consolidated statement of comprehensive income.

Each lease payment is allocated between the liability and the finance cost. The finance cost is charged to statement income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The constant periodic rate of interest is the discount rate used at the initial measurement of lease liability.

For a contracts that contain a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

#### Where the Group is the lessor

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised on a straightline basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

When a contract includes lease and non-lease components, the Group applies IFRS 15 to allocate consideration under the contract to each component.

### 2.3.15 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets which are assets that necessarily take a substantial year of time to get ready for their intended use or sale, are capitalized as part of the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in the consolidated statement of income in the year in which they are incurred.

Investment income which is generated from the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

### 2.3.16 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income as other income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

When the Group receives grants of non-monetary assets, the asset and the grant are recorded at nominal amounts and released to profit or loss over the expected useful life of the asset, based on the pattern of consumption of the benefits of the underlying asset by equal annual instalments.

# 3. FINANCIAL RISK MANAGEMENT

### 3.1 Financial risk

The Group's operations expose it to certain financial risks, market risks (which include foreign currency risks and risks of fair value resulting from change in interest rates, and risks of fluctuations in cash flows resulting from change in interest rates, and market prices risks) credit risk and liquidity risks.

The Group manages these financial risks, by the continuous evaluation of market conditions and its trends and the management's assessments of the changes for long-term and short-term market factors.

#### Market risk

Market risk is the risk of loss resulting from fluctuations in the fair value or the future cash flows of financial instrument due to changes in the market prices. Market risks include three types of risk: foreign currency risk, interest rate risk and price risk.

The Group's senior management monitors and manages its market risks by regular oversight of the market's circumstances and the change in foreign exchange and interest rates, and market prices.

#### Foreign currency risk

Foreign exchange risk is the risk that the fluctuations in the fair value or the future cash flows of a financial instrument as a result of changes in the Group's foreign exchange rates or the value of monetary assets and liabilities denominated in foreign currencies.

The Group is exposed to foreign currency risks resulted mainly from the Group's dealings with financial instruments denominated in foreign currency. Foreign currency risks are resulting from the future transactions on financial instruments in foreign currency as reflected in the consolidated financial statements.

The major transactions of the Group are in Kuwaiti Dinars. Financial assets in foreign currency are represented in certain receivables and bank current accounts. Financial liabilities in foreign currencies are represented in certain payables in foreign currencies.

The Group follows up the foreign currency risks through:

- Follow-up the changes in foreign currency exchange rates on regular basis.

- Minimize dealing with financial instruments denominated in foreign currency and due to the main Group's activity.

The following is net foreign currencies positions as at the date of the consolidated financial statements:

	2021	2020
US Dollars	15,662,904	15,305,393

2020

0001

Had the USD changed by 10% against the Kuwaiti Dinar, the consolidated financial statements of the Group would be changed as follows:

	2021	2020
Net Profit	1,566,290	1,530,539

#### **Price risk**

The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from foreign currency risks and risks of interest rates). The Group is exposed to such risks as the Group owns investments classified in the consolidated financial position as investment at FVTOCI investments.

The Group's management monitors and manages such risks through: -

- Manage the Group's investments through portfolios managed by specialized portfolio managers.

- Invest in companies' shares that have good financial positions that generate high operating income and cash dividends and with well performing investment funds.

- Investments in unquoted shares and securities should be in companies that carry similar activities where such investments should be studied and approved by the senior management.

- Periodic follow-up of the changes in market prices.

As at 31 December 2021, if the market price index changes by 5% in excess or less, with all other

variables held constant, the effect on other comprehensive income (as a result of changes in the fair value of financial assets investment at FVTOCI) as a result of the 5% potential change in the market index, with all other variables held constant will be in the range of KD 298,287 as at 31 December 2021 (KD 231,262 as at 31 December 2020).

#### Interest rate risks

Interest rate risks are the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Financial instruments with fixed interest rates expose the Group to fair value interest rate risks. Financial instruments with variable interest rates expose the Group to cash flow interest rate risks.

The financial Instruments held by the Group which are exposed to this risk are represented in loans and bank facilities (Note 20) because it carries variable interest rates.

As at 31 December 2021, had interest rates been 100 basic point higher/lower, interest charged of the year would have been lower/ higher by KD 401,824 (KD 238,460 - 2020) approximately.

The Group's management monitors and manages such risks through:

- Regular follow-up of the market interest rates.

- Borrowings for short terms and long term, which help mitigating interest rate risks.

#### Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Receivables, cash and cash equivalents are considered the most of the assets exposed to credit risk. The Group monitors and manages this risk by:

- Dealing with high credit worthiness and reputable customers.

- Dealing with highly credit rated banks.

The management of the Group believes that the maximum exposure to credit risks as at 31 December is as follows:

	2021	2020
Trade and other receivables (Note 11)	1,873,857	1,856,332
Cash and cash equivalents (Note 13)	20,073,113	20,307,049

#### Liquidity risks

Liquidity risk is the risk that an enterprise will encounter difficulty in raising funds to meet its commitments. The Group manages liquidity risk by maintaining adequate cash and bank balances and borrowing facilities and by continuously monitoring forecast and actual cash flows.

The Group manages liquidity risk through maintaining adequate assets, which are easily convertible into cash and also by securing banking facilities in addition to ongoing monitoring of the expected and actual cash flows and maturity profile of financial assets and liabilities.

Current liabilities exceed current assets by KD 9,006,791 as at 31 December 2021, The Group's management believes that the short-term bank facilities are renewable for periods highly reliable.

The following are the maturity dates of the Group's liabilities as at 31 December 2021 and 2020:

		2021	
	Within 1 year	1 - 2 years	More than 2 years
Loans and bank facilities	17,007,919	-	23,174,496
Lease liabilities	2,130,754	3,043,379	36,384,845
Trade and other payables	11,078,300	2,633,009	1,063,355
	Within	2020	More than
	1 year	1 - 2 years	2 years
Loans and bank facilities	23,846,012	-	-
Lease liabilities	1,762,879	3,893,633	21,011,422
Trade and other payables	8,711,350	-	1,617,007

### 3.2 Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximising the return to the shareholders through the optimisation use of the equity.

The capital structure of the Group consists of net debt (borrowings less cash and cash at banks) and equity (including capital, reserves, retained earnings and non-controlling interests).

During 2021, the Group's strategy does not change from 2020; which is to maintain lowest possible gearing ratio.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2021

(ALL AMOUNTS ARE IN KUWAITI DINAR UNLESS OTHERWISE STATED)

### 3.3 Fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 - inputs other than quoted prices included within Level 1, that are observable for the asset or liability either directly or indirectly; and

Level 3 - unobservable inputs for the asset or liability.

For financial instruments quoted in an active market, fair value is determined by reference to quoted market prices. Bid prices are used for assets and offer prices are used for liabilities. The fair value of investments in mutual funds, unit trusts or similar investment vehicles are based on the last published net assets value.

For unquoted financial instruments fair value is determined by reference to the market value of a similar investment, discounted cash flows, other appropriate valuation models or brokers' quotes.

For financial instruments carried at amortised cost, the fair value is estimated by discounting future cash flows at the current market rate of return for similar financial instruments.

The fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

The table below gives information about how the fair values of the significant financial assets and liabilities are determined:

	Fair val	ue as at	Date of	Fair value	Valuation technique(s)	Significant	unobs	tion of ervable
Equity instruments	31/12/2021	31/12/2020	valuation	hierarchy	and Key	unobservable inputs		its to value
designated as FVTOCI								
Quoted shares	5,965,744	4,625,243	31/12/2021	Level 1	Last bid price	N/A	I	N/A
Investment funds	-	4,168	31/12/2021	Level 2	Net assets value	N/A	I	N/A
Unquoted shares	52,832	52,832	31/12/2021	Level 3	Price multiple	Discount rate	Higher o	liscount re-
							sults in	value decline
Unquoted shares	32,016	32,016	31/12/2021	Level 3	Discounted	Discount rate	Higher o	liscount re-
					cash flows		sults in	value decline
Unquoted shares	879,202	826,650	31/12/2021	Level 3	Net adjusted	N/A	I	N/A
					book value			
Adjustment to determine	fair value h	ierarchy 3					2021	2020
Balance as at 1 January							911,498	2,516,044
Change in fair value							52,552	(1,604,546)
Balance as at 31 Decembe	r						964,050	911,498

The fair value of other financial assets and financial liabilities approximately equal its book value as at the financial information date.

# 4. CRITICAL ACCOUNTING ESTIMATES, ASSUMPTIONS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, the Management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

UNLESS OTHERWISE STATED)

#### Judgements:

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the assets recognised in the consolidated financial statements.

#### **Classification of investments in equity instruments - IFRS 9**

On acquisition of an investment, the Group decides whether it should be classified as "FVTPL" or "FVTOCI". The Group follows the guidance of IFRS 9 on classifying its investments.

The Group has designated all investments in equity instruments as at FVTOCI as these investments are strategic investments and are not held for trading.

#### Capitalization of cost of properties under development

The Group has significant capital expenditure with respect to the construction of new shopping complex and cinemas. The determination of the elements of cost that are eligible to be capitalized, and the identification of costs related to project in progress that may not meet the relevant capitalization criteria, require significant management judgement.

#### **Classification of real estate**

The management will decide on the acquisition of a real estate whether it should be classified as held for trading, property under development or investment property.

The Group classifies property as held for trading property if acquired principally for sale in the ordinary course of business.

The Group classifies property as property plant and equipment when acquired for the purpose of the group operation.

The Group classifies property as investment property if acquired to generate rental income or for capital appreciation, or for undetermined future use.

#### Determining the lease term of contracts with renewal and termination options - Group as lessee

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has the option, under some of its leases to lease the assets for additional terms. The Group applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

#### **Discounting of lease payments**

The lease payments are discounted using the Company's incremental borrowing rate ("IBR"). At initial adoption of IFRS 16 "Leases", the Management has applied judgments and estimates to determine the incremental borrowing rate.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

(ALL AMOUNTS ARE IN KUWAITI DINAR UNLESS OTHERWISE STATED)

#### Sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### Fair value measurement and valuation techniques

Certain assets and liabilities of the Group are measured at fair value for preparing the financial statements. The Group's management determines the appropriate key methods and inputs required for the fair value's measurement. Upon determining the fair value of assets and liabilities, the management uses an observable market data. In case no market observable data is available, the Group shall assign an external qualified valuer to carry out the valuation process. Information about the evaluation methods and necessary inputs, which are used to determine the fair value of assets and liabilities, has been disclosed in note (3.3) and note 5, 6 and 10.

#### Impairment of an associate

Impairment testing of the associate is carried out when there is an indication of such impairment. Impairment is assessed for the entire carrying value of the Group's investment in the associate including goodwill, therefore no impairment study for goodwill is required independently.

#### Useful lives of property, plant and equipment and right of use assets

The management determines the useful lives and depreciations of property, plant and equipment, and right of use asset, as well as increases the depreciation expense when the estimated useful lives became lower than the previously estimated useful lives, or eliminates or write down value of the obsolete assets or non-strategic assets whether disposed or sold.

#### Impairment of tangible assets

The Group reviews the carrying amounts of its properties, plant and equipment and right of use assets to determine whether there is any indication that those assets have suffered an impairment loss in accordance with accounting policies. The recoverable amount of an asset is determined based on higher of fair value and value in use. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgment and uncertainty, and actual results may differ resulting in future changes to such provisions.

#### **Contingent liabilities/liabilities**

Contingent liabilities arise as a result of past events confirmed only by the occurrence or non-occurrence of one or more of uncertain future events not fully within the control of the Group. Provisions for liabilities are recorded when a loss is considered probable and can be reasonably estimated. The determination of whether or not a provision should be recorded for any potential liabilities is based on management's judgment.

Useful lives (year)		5 - 40	4 - 15	5 - 15		

- The historical cost of land that are measured at fair value is KD 650,000 as at 31 December 2021 & 2020.

- The fair value of the lands as at 31 December 2021 are estimated based on valuations carried out by independent valuers not related to the Group. The independent valuers are licensed from the relevant regulatory bodies and they have appropriate qualifications and experiences in valuation of properties one of these appraisers is a local bank. The fair value of lands has been determined based on acceptable methods of valuation such as market comparable (level 2).In estimating the fair value of properties, the highest and best use of the properties is higher current use.

- The Group has studied the impairment of the property, plant and equipment (except lands) and the related right of use leased assets based on the value in use method. The Group's management, concluded that the recoverable amount exceeds the net carrying value as at 31 December 2021.

- The recoverable value has been determined based on value in use calculation, using cash flow projection based on financial budget as follows:

	2021	2020
Financial budget cover period (Years)	5-20	5-20
Discount Rate (Weighted average cost of capital)	%10	7-10%

- Addition to property plant and equipment include capitalized finance cost with an amount of KD 555,719 for the year ended 31 Dec 2021 (KD 89,797 for the year ended 2020).

- Depreciation has been charged to the statement of income as follows:

	2021	2020
Operating costs	1,151,476	1,031,754
Other operating expense	41,799	53,100
Administrative and General expenses	154,449	160,190
	1,347,724	1,245,044

# **6. INVESTMENT PROPERTIES**

	2021	2020
Investment properties	4,673,005	4,656,722
Investment properties under development	44,484,888	
	49,157,893	4,656,722

#### Movement on investment properties are as follows:

	2021	2020
Balance as at 1 January	4,656,722	4,673,004
Transferred from property, plant and equipment (Note 5)	32,426,194	-
Transferred from right of use of leased assets (Note 7)	11,958,694	-
Change in fair value	116,283	(16,282)
Balance at 31 December	49,157,893	4,656,722

### 6.1 Investment properties

Investment properties are presented in real estate owned by the Group that has been constructed to be used as investment property in accordance with the Articles of Association and its amendments.

The fair value of the Group's investments property as at 31 December 2021 are estimated based on valuations carried out by independent valuers not related to the Group. The independent valuers are licensed from the relevant regulatory bodies and they have appropriate qualifications and recent experiences in valuation of properties at the relevant locations one of these appraisers is a local bank.

The fair value of investments property has been determined based on acceptable methods of valuation such as market comparable. (level 2). In estimating the fair value of properties, the highest and best use of the properties is higher current use.

### 6.2 Investment properties under development:

During the current year and upon identifying the final use of the project under construction "commercial, entertainment and cultural complex in Al-Subahya Area" by the Group management's, it was concluded that the project along with the related right of use of land meet the definition of investments properties, and accordingly transferred an amount of KD 32,426,194 & KD 11,958,694 from the property plant and equipment – project under development, and the right of used assets respectively to investment properties under development.

Investment properties under development are constructed on leased land from Government of State of Kuwait "Lessor" according to a lease contract for the period end on 2042 (subject to renewal based on approval from both parties). At the end of the contract, the investment property ownership will be transferred to the lessor.

Investments properties under development include advance payment to contractors amount to KD 2,731,760 as at 31 December 2021.

The fair value of investment properties was determined using the net income capitalisation rate method, using market rental income of all units of the properties and is classified as Level 3. The capitalisation rate adopted is made by reference to the yield rates observed by the valuers for similar properties in the locality and adjusted based on the valuers' knowledge of the factors specific to the respective properties. The valuation model used involves significant unobservable inputs including the average capitalisation rate which is 11%. Average capitalisation rate used in valuation takes into account the capitalisation of rental income, nature of the property and prevailing market conditions.

# 7. RIGHT OF USE LEASED ASSETS

### 7.1 When the Group is a lessee

#### **Right-of-use leased assets**

The Group as a lessee has leased several assets including buildings, lands, equipment. The Group's obligations are secured by the lessors' title to the leased assets for such leases. Movement on right of use leased assets during the year is as follows:

	Buildings	Lands	Total
Cost As of 1 January 2020	13,691,309	1,038,331	14,729,640
Additions	13,031,303	11,852,632	11,852,632
As of 31 December 2020	12 001 200		
	13,691,309	12,890,963	26,582,272
Additions	13,865,256	-	13,865,256
Transferred to investments Properties (note 6)	-	(12,001,837)	(12,001,837)
Disposals	(1,334,057)		(1,334,057)
As of 31 December 2021	26,222,508	889,126	27,111,634
Accumulated Depreciation	2,070,320	145,744	2,216,064
As of 1 January 2020	2,033,150	133,118	2,166,268
Depreciation	4,103,470	278,862	4,382,332
As of 31 December 2020	1,806,617	133,118	1,939,735
Depreciation	-	(43,143)	(43,143)
Transferred to investments Properties (note 6)	(103,982)		(103,982)
Depreciation	5,806,105	368,837	6,174,942
As of 31 December 2021			
Net book value	20,416,403	520,289	20,936,692
Net book value as of 31 December 2021	9,587,839	12,612,101	22,199,940
Net book value as of 31 December 2020	1-20	6-21	
Lives (year)			

During the current year the group has modified the certain lease contracts term from fixed to variable (linked to the certain operating revenue), in addition to termination of other lease contracts. The related Right of use assets and liabilities was disposed and resulted in gain with an amount of KD 66,437 recorded in the consolidated statement of comprehensive income.

The breakdown of related lease amounts recognized in the consolidated statement of income is as follows:

	2021	2020
Depreciation on right-of-use assets (included in operating costs)	1,939,735	2,166,268
Interest on lease liabilities (included in finance cost)	648,733	408,320
Short-term leases (included in operating costs)	106,014	314,054
Variable lease payments not included in the measurement of the lease liability (included in operating costs)	668,270	199,995
	3,362,752	3,088,637

Additionally, the Group has benefited with an amount of KD 574,017 from waiver of lease payments for certain locations during the current year (KD 1,420,582 – 2020) and has been accounted for as a negative variable lease payment in the consolidated statement of income.

### 7.2 When the Group is a lessor

#### **Operating lease arrangements**

Operating leases, in which the Group is the lessor, relate to investment property owned by the Group with lease terms between five to six years. All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have an option to purchase the property at the expiry of the lease period.

The unguaranteed residual values do not represent a significant risk for the Group, as they relate to property which is located in a location with a constant increase in value over the last 8 years. The Group did not identify any indications that this situation will change.

# 8. LEASE LIABILITIES

Non-current lease liabilities         31,447,275         20,797,466           Current lease liabilities         2,130,754         1,762,879         33,578,029         22,560,345           Amounts due for settlement within 12 months         33,578,029         22,560,345         22,560,345           Maturity analysis         33,578,029         22,560,345         2020           Less than 1 year         2,130,754         1,762,879           From 1 to 5 years         14,787,839         12,669,257           From 5 Years to 20 Years         24,640,385         12,255,798           Movement on lease liabilities during the year is as follows:         2021         2020           Balance as at 1 January         22,560,345         12,315,471           Addition new contracts         13,683,456         11,852,632           Interest expense         648,733         408,320           Lease Payment         (1,443,976)         (595,496)           Disposals         (1,296,512)         -           waiver of lease payments         33,578,029         22,500,345		2021	2020

~ ~ ~ ~

The movement of provision expected credit losses is as follows:

|                                         | 2021    | 2020    |
|-----------------------------------------|---------|---------|
| Balance as at the beginning of the year | 897,747 | 689,895 |
| Provide during the year                 | -       | 207,852 |
| Reverse during the year                 | (303)   | -       |
| Balance as at the end of the year       | 897,444 | 897,747 |

No interest is charged on the overdue trade receivables. The Group does not hold any collateral as security.

The Group always measures the loss allowance for impairment for trade receivables at an amount equal to lifetime ECL. The expected credit losses on trade receivables are estimated by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date. Accordingly, trade receivables with a past due are considered as impaired.

As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished between the Group's different customer base.

# **12. INVENTORIES**

|                    | 2021     | 2020     |

2020

UNLESS OTHERWISE STATED)

# **16. STATUTORY RESERVE**

In accordance with Company's Law and the Parent Company's Articles of Association, 10% of annual net profit is to be transferred to statutory reserve. The General Assembly may resolve to discontinue such annual transfers when the reserve reaches 50% of the share capital. This reserve is not available for distribution except for the cases stipulated by Companies Law.

On 14 April 2010, the ordinary general assembly decided to stop the deduction from net profit to statutory reserve as exceeds 50% of the share capital.

# **17. VOLUNTARY RESERVE**

According to the Parent Company's Articles of Association, a percentage of the net profit for the year proposed by the Board of Directors and approved by the general assembly is transferred to the voluntary reserve. The general assembly may stop this transfer based on the proposal of the Board of Directors. On 23 February 2022 the Board of Directors proposed transferring an amount of KD 455,903 to the voluntary reserve account for the year ended 31 December 2021 (No transfer to voluntary reserve as of 31 December 2020 since the group net results are losses).

| Capitalized finance cost for qualifying assets | (555,719) | (89,797) |
| Total finance costs                            | 958,559   | 801,132  |

# 24. EMPLOYEES COSTS

| Employees costs has been charged to the statement of income as follows:            | 2021                                       | 2020                                         |
|------------------------------------------------------------------------------------|--------------------------------------------|----------------------------------------------|
| Operating costs<br>Other operating expenses<br>Administrative and General expenses | 928,799<br>798,135<br>526,296<br>2,253,230 | 1,221,067<br>878,183<br>577,687<br>2,676,937 |

# 25. BASIC AND DILUTED EARNINGS/ (LOSSES) PER SHARE TO SHAREHOLDERS OF THE PARENT COMPANY

Basic earnings per share are calculated by dividing the profit/ (loss) for the year by the weighted average number of ordinary shares outstanding during the year (excluding treasury shares). Diluted earnings/ (losses) per share is calculated by dividing the profit/ (loss) for the year by the weighted average number of ordinary shares outstanding during the year (excluding treasury shares) plus the weighted average number of ordinary shares to be issued upon conversion of all dilutive potential ordinary shares into ordinary shares. The parent company had no diluted shares as at 31 December 2021/2020.

The information necessary to calculate basic and diluted earnings/ (losses) per share based on the weighted average number of shares outstanding less treasury shares, during the year is as follows:

|                                                                                                               | 2021       | 2020        |
|---------------------------------------------------------------------------------------------------------------|------------|-------------|
| Net profit / (losses) for the year attributable for shareholders of the Parent Company                        | 4,386,014  | (7,308,818) |
| Weighted average number of outstanding shares less treasury shares (share)                                    | 92,602,177 | 92,676,051  |
| Basic and diluted earnings / (losses)per share attributable to the shareholders of the Parent Company (fills) | 47.36      | (78.86)     |

Both basic and diluted earnings/ (losses) per share are equal since the Parent Company does not have diluted outstanding instruments.

# 26. DIVIDENDS

- On 21 April 2021, the General Assembly of the Parent Company's Shareholders approved the consolidated financial statements for the year ended 31 December 2020 and approved not to distribute profits for the year ended 31 December 2020, and approved not to distribute Board of Directors' remuneration for the year ended 31 December 2020.

# 29. CONTINGENT LIABILITIES

The letters of guarantee issued for third parties were amounted to KD 2,386,680 as at 31 December 2021 & 2020.

# **30. FUTURE COMMITMENTS**

**Capital expenditure commitments** 

|                                          | 2021       | 2020       |
|------------------------------------------|------------|------------|
| Estimated capital expenditure contracted | 23,713,567 | 34,707,740 |
| Future commitments for purchasing films  | 377,431    | 365,064    |

# 31. IMPACT OF COVID-19

The Corona pandemic (Covid-19) continues to spread rapidly across several global geographic regions, causing major disturbances in business and economic activities and as a result the cinema sector activities stopped during the period from 9 March 2020 until 12 May 2021 in response to the decisions of the government authorities in the State of Kuwait in addition to fundamental uncertainties regarding the environment. Global economy. Financial and monetary authorities around the world have taken intensive measures that have been allocated to alleviate the dire consequences of this pandemic.

The Group restarted cinema activities on 12 May 2021 in accordance with the health requirements of the regulatory authorities in the State of Kuwait.

The Group considered the best available information about past events, current conditions and forecasts of economic conditions in determination of the reported amounts of the Group's financial and non-financial assets reported in these consolidated financial statements. Markets however remain volatile and the recorded amounts remain sensitive to market fluctuations.

#### Impairment of property, plant, equipment and right of use leases assets

The Group has assessed the decline in the value of property, plant and equipment (other than lands), and the right to use the assets due to the suspension of the cinema activity sector and the decrease in the revenues of the cinema division substantially. The Group has not identified any material impact on the carrying value of property, equipment and right to use leased assets as of 31 December 2021 due to COVID-19. The Group continuously monitors market forecasts and uses related assumptions to properly incorporate these asset values in the consolidated financial statements.

#### Unquoted investment

The Group has taken into consideration the potential impact of current economic fluctuations on the reported amounts of the Group's unquoted financial investments. The reported amounts represent management's best estimate based on observable information as at the reporting date. Given the impact of COVID-19, the Group is closely monitoring whether the fair values of the financial assets and liabilities represent the price that would be achieved for transactions between market participants. Further information about the Group's policy regarding fair value measurements is disclosed in Note 2.3.7.

#### **Investment properties and lands Valuation**

The Group considered the best available information about past events, current conditions and forecasts of economic conditions in determination of the reported amounts of the Group's Investment properties and lands in these consolidated financial statements. Based on valuation which has been done by the Group, there is no material change in properties' fair value due to Covid-19. The Group's management believes that recorded amounts represent the best estimate in light of the available information.

#### Going concern

The Group has performed as assessment of whether it is a going concern in the light of current economic conditions and based on all available information about future risks and uncertainties. The projections have been prepared covering the Group's future performance, capital and liquidity. The impact of COVID-19 continue to evolve, but at the present time, the projections show that Group has ample resources to continue in operational existence and its going concern position remains largely unaffected and unchanged from 31 December 2020. As a result, this consolidated financial statements has been appropriately prepared on a going concern basis.

# **32. COMPARATIVE FIGURES**

Certain prior year amounts have been reclassified to conform to current year presentation with no effect on net profit or equity.
